

Regarding weather

Creative's staying open policy

Creative's philosophy is to be available for you and your child as much as possible during our established business hours. We remain open as long as there is reasonable possibility to see clients and our staff can get to us. Note that our decision is independent of those made by school districts and government agencies. We are usually open even though the schools and government are closed.

If we determine conditions warrant and we cannot open, we will notify you as soon as possible: first by telephone and then by email if we cannot reach you. We will also post business hour changes or closures on the front page of our web site www.creativehealthllc.com. We will try to reschedule affected appointments.

If conditions for you are such for you that you must reschedule or cancel, please let us know as soon as practical. Call our main number 703-910-5006 or send email to info@creativehealthllc.com.

Thank you for your understanding.
